

PAWN

Free, automated, paperless transaction reporting for your shop.

COMPLIANCE • TICKET MANAGEMENT • DIRECT UPLOAD

KEY FEATURES

Report transactions in minutes, not hours

Everything your shop needs to stay compliant with local reporting laws.

Compliance and Reporting

Stay fully compliant with local laws by providing accurate, detailed reports to your law enforcement agency.

Free for Pawn Shops

FINDER Pawn is completely free to use when your shop is connected to a participating FINDER Pawn law enforcement agency.

Seamless Upload

Upload transaction tickets directly, so every transaction is promptly reported to your local agency.

Easy Ticket Management

Enter and manage tickets with ease. Add detailed records for articles, jewelry, firearms, and more.

What is FINDER Pawn?

FINDER Pawn is an easy, automated, paperless way for pawn shop owners to share transaction information with local law enforcement. It helps agencies investigate and prevent crime, while helping your shop meet compliance requirements and avoid buying or reselling stolen goods.

Available only to shops in regions where the local law enforcement agency subscribes to FINDER Pawn.

BENEFITS

- ✓ Streamlined reporting
- ✓ Real-time data
- ✓ Efficient search
- ✓ Enhanced security
- ✓ User-friendly interface
- ✓ Designated support

Get your shop connected

Ask the FINDER Admin at the law enforcement agency your shop reports to about activating FINDER Pawn. Setup takes minutes. For technical issues or upload problems, submit a request at findersoftware.com/support.

USING FINDER PAWN

Simple and efficient, from day one

Your primary point of contact is the FINDER Admin at the law enforcement agency your shop reports to. Here's the roadmap to get up and running.

1 Getting Started

All your shop needs is a computer and internet access. You'll be provided a username and temporary password to log in to finderpawn.org.

2 Getting Activated

Your local law enforcement agency activates your shop, then sends your username and temporary password to log in.

3 Ticket Load & Upload

Download the Excel template on the upload page, fill it in with your ticket information, and upload it. Accepted formats: CSV, TXT, DBF, XML, EXP, XLS.

4 First Upload Verification

Every upload returns a status of Inserted or Rejected. If rejected, correct the listed issue and re-upload.

5 User Guide & Support

Log in and click Contacts & Help for the full User Manual and other resources, any time you need them.

“

FINDER Pawn has been a game-changer for our shop. It keeps us compliant with all regulations, and the reporting tools make it simple to share everything with our local agency.
